As the S in the name suggests, VSPHOENIXS, is a slimmer, High Performance, sensual successor to the VSPHOENIX. This model was specially designed for the global market and is gaining popularity in many countries.

- Top Monitor**
27" HD Wide Screen is mounted on top to boast the spectacular visual effect to the spectators.
- Dual Cameras**
Introduced first by VSPHOENIX Dart and now an electronic dart machine standard, the dual camera system display both the player and dartboard to ensure fair play.
- Design plus Slim**
With a beautifully curved sideline, the machine has been designed to appear slimmer and sharper.
- Electronic Dartboard**
The slimmer, flatter dartboard can be more flush to the wall for less footprint. Illuminated numbers are now on the dartboard.
- Wide Monitor**
The 23" HD Wide Screen has been placed below the target for the players to enjoy the great visual effects.
- User Friendly Design**
The beautifully designed (GUI) is easy for users to understand.
- Easy to Use Controls**
The ergonomically designed buttons make it easy to navigate the system, hence it is quicker to use the control.
- RFID Card System**
Information stored in PHOENIX cards are displayed quickly through the proprietary RFID card reader. The color changes to distinguish between different players
- Magnificent Illumination**
The LED illumination has been redesigned as an S Model, which stands for slim, smart, speed, super, and sense.
